About Me

Results-driven and detail-oriented front-end web developer with 5 years of experience designing and building responsive, user-centered web applications. Skilled in HTML5, JavaScript, TypeScript, and PHP, with proficiency in popular frameworks and libraries such as React, Bootstrap, and Tailwind. Possess strong technical expertise in developing seamless user interfaces and optimizing performance, ensuring cross-browser compatibility and mobile responsiveness. Experienced in leveraging Python for backend tasks and automation, bringing a full-stack perspective to frontend development. Passionate about crafting engaging digital experiences, continuously enhancing user interaction, and staying current with the latest industry trends and best practices.
